CHAIRMAN HARRITY APPROVES.

Me Says All Who Can Should Contribute

to the " World's" Fund.

No. 139 Fifth avenue, New York.

To the Editor of The World:

The movement for an energetic and age campaign of education and organization in Wisconsin, Illinois, Iowa, Michigan, Minneseta and other Western States is excellent. It deserves encouragement from the Democrats of the East; in fact, substantial support should be given to it by the Demo-

I believe there are tens of thousands of ocrais who have not been in the habit of contributing to the National Campaign Fund for want of apportunity. The Demo-cratic National Committee has been and is likely to be unable to reach them, and they willidoubtless be glad to avail themselves of this means of giving to the fund which it is proposed to raise for the expenses of the

campaign in the West. The contributions to the campaign fund o; he Democratic National Committee for the of the general campaign throughout

respectfully. WILLIAM F. HARRITY.

HOW THE PEOPLE RESPONDED.

Quick Action Taken by Democrats Who Want to See the West Won Over. Yesterday was the first, day in which the people had an opportunity to subscribe to the Western Democratic Campaign Fund an-nounced by The World the day before. A timate campaign expenses, the chief large mail was received. It began coming in letters was stopped for the day and the task

of transcribing names of contributors and enw. resterday was 264. The total amount contion may be acknowledged | with the subscriptions of \$10,000 from Joseph THE WORLD: | Pulltzer, \$1,000 from William M. Singerly and \$1,000 from Gen. C. H. Taylor, made the day before, brings the Western Deposits.

\$1,000 from Gen. C. H. Taylor, made the day before, brings the Western Democratic Cam-paign Fund up to \$12,422,50.

This is a gratifying beginning. It is espe-cially gratifying when you take into consider-ation the fact that the people who contributed yesterday learned only yesterday morning the precise nature of the plan and the precise method by which to forward their contribu-tion to Tay Wom'r office. ion to THE WORLD office.

WHY THE WORK IS BEING DONE.

The reasons why The Wonlo and other stanch Democratic newspapers are engaged in this popular subscription work must be plain to every Democrat. This money which you and your fellow-Democrats give is to be used in doubtful Western States. It is to be used in doubtful Western States. It is to be used in deducating citizens in Illinois, lows, Minnesots. Nebrasks. Wisconsin, Michigan, and perhaps other Western commonwealths, those men who need only a little more argument in order that they may become firm and inithful Democrats. These states have recently given strong indications that they are becoming Democratic. The business of the day is not to let them alone and merely trust that they will become Democratic by 1840, but rather to work with them now so that they may become Democratic in November this year.

A stellar from you may be the means of con-WHY THE WORK IS BEING DONE

A deliar from you may be the means of converting some doubtful voter in one of these States. Ten dollars from you will do more then ten times as much. If you can give more, give it.

CHAIRMAN HARRITY IS WITH US.

CHAIRMAN BARRITY IS WITH US.

The object which The Worke has in view and the plan upon which The Worke has in view and the plan upon which The Worke its working have been approved by Chairman Harrity, of the National Democratic Committee. Mr. Harrity says that all the money which the people can raise can be used with good results and ne hopes that every one who can will contribute to the fund.

Senator Carlisle has also expressed himself in favor of the Western Democratic Campaign Fund. He believes that it is the right way to get money from the people, and is confident that the dimes and the dollars of the Democratic hosts, as gathered in this way, will do much towards electing Cleveland and Stevenson and substituting lariff reform for protection their.

The last column on the first page of to-day's Women you will find a condensed statement of the scope of the Western Democratic Campaign Fund and suggestions as to the manner of sending con-tributions to The Women. Every dollar rerelived by us up to 5 o'clock in the afternoon
will be acknowledged in The Words the next
morning. Even if it is not a dollar subscription it will be just as gisdly welcomed and as
july acknowledged.

Let it not make any difference whether you be a man, a woman, a boy or agirl, so long as you be a Democrat, a believer in goveryment for the best interests for the people, a believer in tariff reform. BEWARE OF PRACOS.

TO WIS WITHOUT NEW YORK. To WIN WITHOUT NEW YORK.

Put my name down for \$1, the best I can do at present for the Western Democratic vain-paign Final. Grover Cleveland was nominated without the vote of New York State, and while I believe he will get the electoral vote of the Empire State, it is well to offset possible defeat at home by victories abroad, illinois, lowa, Nebraska, Wisconsin and Michigan are doubtful to-day. A vigorous campaign, well handled, is all that is needed to throw them into the Democratic column.

A. J. Harkington.

I like the notiou of attacking the Western States in the name of hemocracy and tariff reform. If they cannot at he carried this year they can be placed in the doubtful column at least. The World's Western bemuch at least. HENRY SHIELDS

THE PIRST OF A \$2 SERIES. THE FIRST OF A \$22 SERIES.

I believe The Wore b's movement is one of the test that the campaign managers have before them. A campaign of education in tariff reform and other good Democratic decirines cannot laid to win lowa and Nebraska for the party. It seems to me. I send \$2 as my contribution to the Western Democratic Campaign Fund, and I will get my friends to do likewise.

NO NEGLECT IN 1892. NO NEGLECT IN 1802.

A PREST VOTER'S PREST CONTRIBUTION.

A FIRST FOTERS FIRST CONTRIBETION.

I will cast my first vote this fall, and this is my first contribution to a campaign fund.

It is only \$1, but I guess it will do a living good in some place where the broody shirt has been waved to tags. It will be a great triumph for bemocracy to elect a President without the aid of New York. The Worlin's jund ought to grow. George Spalding.

ADD WESTERN STATES TO THIS ONE. ADD WESTERN STATES TO THIS ONE.
In Sending the inclosed \$P2.50 to The Women's Western Democratic Campaign Fund I most heartly indopse the movement to break the Republican column in the West. We will do all we can in New York State, and we will carry it, too; but with proper efforthearly all of the Western States The Word in Day suggested can be won over in addition. All signs point to a glorious victory for Democracy in November. We should aid the West in coming over to tariff reform and the principles of Jefferson.

THE WEST IS THE THUMP CARD.

Why has Gladstone after predictionary defeats extending over a lifetime won out again and again in the political game? Because he has represented a principle and while waiting for the final triumph has educated, the people up to it. So with Grover claveland. Four years ago he was deteated, he stuck to his guas and now the time is riped for a glorious triumph for tharff reform. In 1840 we had our hys-election. It showed the way the wind was howing when it wheel out of existence the McKinley Congress. The sole issue was tariff reform. Nothing else the way the was tariff reform. Nothing else the sale was tariff reform. Nothing else should be allowed to come into the present canvass. Now the West is the card to play, if ye carrying on the cambaigh there you describe, you will make assurance doubly sure, it is our anchor to windward. I am a Democrat and a Tammany man. It's a mighry good scheme to get up a Western compaign fund, and I hope it will succeed. It ought to, with the \$12,000 nest egg with which it has started off. Those subscriptions were mit three in big chunks. That's the kind we want. Still you say you want anything over 10 cents. A small subscription shows that the giver is with you in spirit, even if he hasn't got much cash. Now I am a very poor man, and I can't afford to give \$10,000 like Mr. Pulltzer, or \$1,000 like the others, or even one-tenth of that. But to show my interest I send you what means more to me than either of the above sums do to their subscribers. It is not much, but every little helps. You will find \$1 in this letter.

I must say you have done a spiendid work by showing up this Chinese Sunday-school system. It should have been abolished long ago. I think that was a good idea of Supt. Krug, in the Church of the Strangers, to make pupil and teacher sit one at each side of the taile. But just wait and see how the Mongolians will kies. The Celestal wants nothing between him and the young woman, and sits as close as he can to her.

Another very important matter you spoke about in your paper the other day, that is the spread of leprosy, because you see many Culnamen attending Sunday-school are diseased and strive and hide it from view, and the young women who sit so close to the Mongolians cannot escape catching this terrible disease. In fact, if we go to the root of this evil, that is the Chinese Sunday-school system, we must blame several clergymen who in fact praise it up, such men as Dr. MacArthur, pastor of the rity-seventh street Baptist Church.

As able doctor once said that many people were touched with some kind of insanity, and I believe that these young women who teach the Celestials are afflicted with religious insanity over the Mongolians, and sometimes you will see the teacher go partly out of her right mind and marry the dear heathen. As I have already said, you are doing a great and noble work. Keep right at it until the system is changed. John Henry.
